Profile

UI Developer with nearly 2 years of experience in designing and developing responsive web applications. Skilled in HTML5, CSS3, Bootstrap, Tailwind CSS, JavaScript, jQuery, and React.js. Focused on delivering high-quality, user-centric solutions and committed to continuous professional development.

Professional Experience

04/2025 – 06/2025

Bangalore, India

Software Engineer (UI Developer)

Indegene Limited (Techno Facts Solutions Pvt Ltd)

- Developed responsive web interfaces using **HTML5, CSS3, SCSS, JavaScript, and Drupal**.
- Created and customized **Drupal themes** for healthcare applications.
- Built **reusable UI components** to improve development efficiency.
- Ensured **cross-browser compatibility** and optimized performance.
- Applied **web accessibility standards (WCAG)** for inclusive design.

07/2022 – 02/2024

Bangalore, India

UI Developer

HealthSignz Technologies Pvt. Ltd

- Created and integrated new features using React.js, adhering to modern best practices and enhancing user experience.
- Designed and implemented reusable components and front-end libraries for scalability and future use.
- Converted wireframes and design mockups into high-quality, maintainable code, ensuring alignment with project specifications.
- Improved component performance for a wide range of devices and browsers, utilizing React.js performance optimization techniques.
- Coordinated with cross-functional teams to ensure seamless integration of UI components with backend services and other layers of the application.
- Applied Redux for state management and followed Flux architecture principles to maintain application robustness and scalability.
- Implemented and managed RESTful APIs to connect frontend interfaces with backend services.
- Utilized build tools such as Babel, Webpack, and NPM to streamline the development workflow and ensure efficient code compilation and bundling.
- Managed code versions and collaborated with team members using Git for source control and code management.

Achievements

Improved Application Performance

Successfully optimized loading times by 40% for a major web application by implementing code-splitting and lazy loading techniques, enhancing overall user satisfaction and retention.

User Engagement Increase

Designed and developed a new user interface for a mobile application that resulted in a 25% increase in daily active users within three months of launch.

Award for Excellence

Received the Healthsignz Technologies Pvt Ltd "Employee of the Month" award for outstanding contributions to the redesign of the company's flagship product, leading to a 15% boost in customer feedback ratings.

Cross-Functional Collaboration

Led a team initiative that fostered collaboration between design and development departments, streamlining the workflow and reducing project delivery time by 20%.

Personal Projects

My Portfolio [↗](#)

- Developed a responsive portfolio website showcasing projects, technical skills, and professional experience.
- Implemented reusable components, smooth animations, and a functional contact form with EmailJS.

ShopNest [↗](#)

- Developed a responsive e-commerce application using **React.js**, **Tailwind CSS**, **Context API**, and **REST APIs**.
- Implemented product search, category filtering, shopping cart, and a responsive user interface for an enhanced shopping experience.

ZegoClone [↗](#)

- Designed and developed a **React.js** video conferencing application integrated with **ZegoCloud UIKit**, providing real-time video/audio communication, room-based meeting functionality, screen sharing, and a responsive user experience using **Tailwind CSS**.

Taskmate [↗](#)

- Built **TaskMate**, a to-do list app using React and Tailwind CSS, with features for task management and completion.
- Designed a modern, responsive UI with Tailwind's utility-first approach for scalability and user efficiency.

Cinemate [↗](#)

- Developed **CineMate**, a React and Tailwind CSS-based platform showcasing upcoming and top-rated movies with posters and detailed descriptions.
- Designed a responsive, user-friendly interface to provide seamless browsing and an engaging cinematic experience.
